

MEDICAL FLAG AUTHORIZATION

The Recreation Centers of Sun City West provide a medical flag authorization program to individuals who, due to health conditions, require additional help to comfortably complete a round of golf. A medical flag allows the golfer to:

- Advance the golf cart beyond the designated cart turn-back signs.
- Allows the authorized golfer to drive up to 15 feet of the greens and tees.

It does **NOT** entitle the golfer to drive into bunkers, desert areas, water hazards or casual water areas nor does it allow the golfer to drive onto fairways or roughs when the course is under “cart path restrictions”. This is especially true during the several weeks after overseeding in the fall. In addition, carts are **NOT** allowed on the apron of the green or between a bunker and the green.

First Time Request: An individual requesting a medical flag authorization (first time request) should bring either documentation from a doctor or a copy of the state disability license request to Golf Operations located at Pebblebrook Golf Course. Upon approval, a medical flag sticker will be affixed to the individual’s recreation ID card. The sticker will be good for one year. An individual presenting a permanent disability placard from the ADOT Motor Vehicle Division will be given a sticker with a five-year expiration date.

Renewal: An individual requesting a medical flag authorization renewal needs to bring in to Golf Operations current documentation from his or her doctor. Upon approval, the medical flag privileges will be extended for another year, and an updated sticker will be applied to the individual’s recreation ID card.

When checking in at the pro-shop, only golfers who have a current medical flag sticker should be requesting a medical flag from the Starter. The authorized golfer will need to sign for the flag and give their Rec ID number as well. The flag is to be placed in the rear of the golf cart so that it is clearly visible. After the completion of play, the flag is to be returned to the Starter.

In the event the privileges outlined here are abused by the golfer, RCSCW has the right to revoke this authorization *for up to one year* and return the golfer to normal golf cart rule status.

I understand and agree to abide by the above.
