

Grandview Men's Golf Club
Administrative Rules
Adopted 12/12/2023

Rule 1: Limit Shotgun Field to 128 Players

Shotgun fields will be limited to a maximum of 128 players. On days when 128 players request to play in a field, the Monitor will arrange and combine social group players to form foursomes. When more than 128 players request to play in a particular shotgun field (PM or AM), an "Overage" exists and must be cured. The Club Monitor will select a sufficient number of players or social groups to cure the Overage and give them the opportunity to play in the other shotgun field so long as there is room there. The Club Monitor shall maintain a list of the players and groups used to cure overages. Once a player or social group has been used to cure an overage, they will not be selected again until all other players or groups normally playing in the field have been used.

Rule 2: No Guests When Field Is Full

No guests will be allowed to play in any shotgun field that has 120 or more members requesting to play in it. Legitimate prospective members will not be considered as guests for this rule on their first round played with the Club.

Rule 3: Social Group Representative

The Club includes many players who regularly play together as separate groups (Social Groups) within regular weekly Club events. Social Groups regularly having 8 or more players participating in Club play must have a designated Social Group Representative that exclusively communicates with the Club Monitor all requests for pairings and player changes, for the Social Group. Each Social Group should also have one Alternate Representative designated in case the primary Representative is not available. Social Groups having less than 8 players regularly in Club play are encouraged, but not required, to have one member handle the group's communications with the Club Monitor.

Rule 4: Deadline for Signup to Play is Sunday 8:00 PM

The deadline for being added to the weekly tournament is 8:00 PM on the Sunday preceding the date of play. Players withdrawing from play are asked to notify the monitor as soon as possible.

Rule 5: Scorecard Errors

A submitted scorecard is final, and will not be changed after it is received by the Club Monitor. An incorrect score (errors in addition are excluded) or tee submitted will result in that player's disqualification from all contests affected by the error.

Rule 6: Pace of Play

Every player must ride in a cart. Carrying your bag or walking with a push or electric bag cart is not allowed.
